RESPONSE TO RESTRICTION/ELECTION REQUIREMENT

Mail Stop Amendment
Commissioner of Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

On July 3, 2007, the Examiner entered a restriction/election requirement requiring the an election of species and an identification of the claims which read on the elected species. The election requirement indicated that the invention contained species A through AC (29 species) and referred to 17 paragraphs in Applicant's Summary of the Invention. (Paragraphs 78-94). Applicant is unable to determine what the Examiner believes to be the 29 different species. For example, paragraphs 78-80 deal with increasing the potency of L-arginine to increase the physiologic benefits of arginine-derived nitric oxide. It is unclear whether the Examiner deems this to be one species or four separate species.

On July 26, 2007, Applicant's counsel called the Examiner and indicated that he was unable to determine the species which fall into A through AC and was thus unable to either elect a species or identify the claims which read thereon. The Examiner indication that he would call back with additional clarification. No call has been received. Applicant therefore

requests a new restriction/election requirement which specifies the species identified by the Examiner. Applicant will then promptly elect a species and identify the claims which read thereon.

Please charge any additional fees or credit any overpayment to Deposit Account No. 502720.

DATED this 3rd day of August, 2007.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Randall B. Bateman", written over a horizontal line.
